

CERTIFIED CARBON NEUTRAL ASSOCIATION

Reporting Period
Jan 2023 – Dec 2023

Total Carbon Footprint
57.43 tCO₂e

Carbon intensity per FTE
14.36 tCO₂e

Emission Sources

Scopes 1 and 2 and categories 1, 6, 7, 8 9 and 10 from Scope 3

Offset

AEMT chose to offset double its emissions at 120tCO₂e, using Verified Portfolio of Carbon Reduction Projects to achieve carbon neutrality.

AEMT Plans

Measuring future emissions including further Scope 3 categories, making further reductions, publish plan to work towards certified net zero association status. Possessing a pro-climate action policy position and proactively leading and supporting members/industry transition.

Awarded to

This is to certify that the Association of Electrical and Mechanical Trades has achieved CAFA Certified Carbon Neutral Association status by measuring, reporting and offsetting its carbon footprint during the period of January 2023 to December 2023 and putting in place credible, science aligned plans to further measure and reduce its emissions.

Harnessing the influence and reach of membership organisations to accelerate climate action.
